

# Car Models

## Page Overview

The "Car Model List" page provides a comprehensive view of all car models managed within the system. It includes dashboard navigation, search and filter options, and a detailed table displaying various car model attributes.

- **Action Buttons (Top Right):**

- **+ Create Car Model:** Allows you to add new car model entries.

- **Search and Filter Panel:** Helps you narrow down the displayed list of car models based on specific criteria.

- **Car Model Details Table:** Displays the list of car models with their respective information, including the associated Car Make.

The screenshot displays the "Car Model List" interface. At the top right, there is a blue button labeled "+ Create Car Model". Below the header, a breadcrumb trail reads "Dashboard > Management > Car models". The main content area features a search and filter panel with a "Car model" input field, a "Maker (id)" dropdown menu set to "Select", and a "Search" button. Below this panel is a table with three columns: "Car Make", "Car Model", and "Actions". The table lists 12 car models, each with a unique ID and a corresponding "Car Make". The "Actions" column contains a pencil icon for each row. At the bottom of the table, there is a pagination control showing a range of pages from 1 to 262, with the current page being 1.

Car Make	Car Model	Actions

# Using the Search and Filter Panel

The search and filter panel allows you to quickly find specific car models by applying various criteria.

## Available Filters:

- **Car Model:** Enter a specific car model name to find an exact match.
- **Maker (ยี่ห้อ):** Select a car make from the dropdown list to filter car models belonging to that specific make.

## Car Model Create

The "Car Model Create" page allows users to add new car model entries to the system. It provides input fields for essential car model information.

- **Car model information panel:** This section contains the fields necessary to define a new car model.

## Creating a New Car Model

To create a new car model, fill in the following fields:

- **Maker (ยี่ห้อ):** (Mandatory field) Select the car make to which this model belongs from the dropdown list.
- **Title:** (Mandatory field) Enter the official name of the car model.
- **Code:** (Optional field) Enter a unique code or abbreviation for the car model, if applicable.

After filling in the required information, click the "**Create Car Model**" button. Upon successful creation, a popup message "**car model created!**" will appear, and the system will automatically navigate to the "**Car Model List**" page. If you wish to discard the entry, click the "**Cancel**" button.
