

District

Page Overview

The "District List" page provides a comprehensive view of all districts managed within the system. It includes dashboard navigation, search and filter options, and a detailed table displaying various district attributes.

- **Action Buttons (Top Right):**

- **+ Create District:** Allows you to add new district entries.

- **Search and Filter Panel:** Helps you narrow down the displayed list of districts based on specific criteria.

- **District Details Table:** Displays the list of districts with their respective information, including the associated Province and the District name.

The screenshot shows the "District List" page. At the top right, there is a "+ Create District" button. Below the header, there is a breadcrumb trail: "Dashboard > Management > Districts". The main content area features a search and filter panel with a "District" input field, a "Province (ຂອງ)" dropdown menu set to "Select", and a "Search" button. Below this panel is a table with the following columns: "Province", "District", and "Actions". The table lists 11 districts, each with a corresponding province name in Lao and a "Copy" icon in the Actions column. At the bottom of the table, there is a pagination control showing a range of pages from 1 to 16, with the current page being 1.

Using the Search and Filter Panel

The search and filter panel allows you to quickly find specific districts by applying various criteria.

Available Filters:

- **District:** Enter a specific district name to find an exact match.
- **Province (පළාත):** Select a province from the dropdown list to filter districts belonging to that specific province.

District Create

The "District Create" page allows users to add new district entries to the system. It provides input fields for essential district information.

- **District information panel:** This section contains the fields necessary to define a new district.

Creating a New District

To create a new district, fill in the following fields:

- **Province (පළාත):** (Mandatory field) Select the province to which this district belongs from the dropdown list.
- **District name:** (Mandatory field) Enter the name of the district.

After filling in the required information, click the "**Create District**" button. Upon successful creation, a popup message "District created!" will appear, and the system will automatically navigate to the "**District List**" page. If you wish to discard the entry, click the "**Cancel**" button.
