

# Village

## Page Overview

The "Village List" page provides a comprehensive view of all villages managed within the system. It includes dashboard navigation, search and filter options, and a detailed table displaying various village attributes.

- **Action Buttons (Top Right):**

- **+ Create Village:** Allows you to add new village entries.

- **Search and Filter Panel:** Helps you narrow down the displayed list of villages based on specific criteria.

- **Village Details Table:** Displays the list of villages with their respective information, including the associated District and the Village name.

The screenshot displays the "Village List" interface. At the top right, there is a "+ Create Village" button. Below the header, a breadcrumb trail shows "Dashboard > Management > Villages". The main content area features a search and filter panel with a "Village name" input field, a "District (region)" dropdown menu set to "Select", and a "Search" button. Below this panel is a table with three columns: "District", "Village", and "Actions". The table contains 11 rows of data. At the bottom of the table, there is a pagination control showing page numbers 1 through 5, followed by an ellipsis, and then 860, 861, 862, and a next page button.

## Using the Search and Filter Panel

The search and filter panel allows you to quickly find specific villages by applying various criteria.

#### Available Filters:

- **Village name:** Enter a specific village name to find an exact match.
- **District (ແຂວງ):** Select a district from the dropdown list to filter villages belonging to that specific district.

## Village Create

The "Village Create" page allows users to add new village entries to the system. It provides input fields for essential village information.

- **Village information panel:** This section contains the fields necessary to define a new village.

## Creating a New Village

To create a new village, fill in the following fields:

- **District (ແຂວງ):** (Mandatory field) Select the district to which this village belongs from the dropdown list.
- **Village name:** (Mandatory field) Enter the name of the village.
- **Village name Lao:** (Optional field) Enter the name of the village in Lao script, if applicable.

After filling in the required information, click the "**Create Village**" button. Upon successful creation, a popup message "Village created!" will appear, and the system will automatically navigate to the "**Village List**" page. If you wish to discard the entry, click the "**Cancel**" button.
